McCREARY FOR VICE PRESIDENT.

Kentuckians Want Senator Honored For Years of Service to Party.

The announcement that Bryan will make six speeches in Kentucky for the State ticket has renewed the suggestions heard that if he is nominated for the Presidency nothing could be more in harmony than that a Southern Democratic leader should be chosen as his running mate.

Kentucky politicians and leading citizens of the various walls of life are asking the question why should not this man come from Kentucky?

The name of James B. McCreary is the one that prominent leaders at Frankfort and throughout the Commonwealth are pointing to as that most suitable to be linked with the Comptroller. That the Senator would prove a most popular candidate and could at once command the support of the Solid South for the honor is not doubted by those who have taken the time to investigate conditions and the sentiment toward his candidacy.—Frankfort Cor. Lexington Herald.

Columbian Spy.

This is the name of a paper printed in our city in 1825. We have seen the issue of Saturday, March 12, 1825. In it we find familiar names: Wm. and George Smith, Stockton, Wilkinson, Gibson, Thos. Grubbs, James Mason, Richard Reid, O'Rear, Anderson, Wm. Chiles. It is a 4 page, 5 column sheet. The subscription price was \$2.50 per year with 25 cents extra for each 3 months delay.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it. 8-4t

The world's record was broken when the boar, "Ten Strike," was purchased by B. M. Chambers, of Owensboro, Kansas, for \$3,125. Sixty-four owners of his get brought \$25,000, or an average of \$5 a piece. The pigs belonged to an Iowa hog fancier.

WOULD MODIFY LAW

Preventing Sale of Whisky to Local Option Counties.

It is probable that the distillers of Kentucky will make an effort to have the laws preventing the sale of whisky to local option counties in this State modified at the next meeting of the Legislature. It is asserted by different whisky dealers that Louisville is not getting a square deal because the interstate law does not prevent Cincinnati from selling whisky into local option counties, whereas the Kentucky law does prevent Louisville dealers from so doing.

"Because of this State of affairs," said one whisky man, "I believe that we will not do as big a volume of business this fall as we have been doing in past years. In my opinion, it is not exactly right for laws to be framed that do not allow Kentucky people to compete with outsiders for the business in their own State."

"I'm getting to be an old man now," he continued, "and don't feel like moving out of the State, but if a young man were to come to me and tell me that he is going into the whisky business, I'd say: 'Young man, get out of Kentucky.' And Kentucky has always had the reputation of producing the best whisky and the most whisky in the country, and in fact, all the world."

"From a moral standpoint, it is all right for laws to be formulated prohibiting to sell to option counties. But I don't see how they help very much, morally, if Cincinnati is allowed to sell to them. Commercially, it means that Louisville is just handing Cincinnati her business."—Courier Journal Sept. 11.

Liquor License Taken Away From Four Saloonkeepers.

Two women were among those who appeared before the License Board at Louisville, September 10 and attempted to show cause why their license to sell liquor should not be revoked. Another feature which added interest was the presence of the Rev. Hunt, pastor of the Twenty-second and Walnut street Baptist church.

One saloonist was deprived of license to sell liquor largely on the evidence adduced from witnesses who were sent to the saloon by Dr. Hunt to trap the women.

Five proprietors of saloons charged with having violated the Sunday closing law were given a hearing before the License Board yesterday and of this number, it is said only one has a defense which is likely to prove valid. This is G. M. Anderson, who conducts a saloon at the Palace Hotel and his case was taken under submission.

Those whose license were revoked are: Mrs. A. C. Pepper, who had saloon at Twentieth and Market streets; Mrs. Mary Cain, whose saloon was at Eleventh and Rowan streets; Peter Bitz, who conducted a saloon at Twelfth and Grayson streets, and Frank Reis, who had a saloon at Fifteenth and Green streets.

The cases against 4 others were continued.

"BUFFALO BILL" IS COMING.

Fresh From European Triumphs, The Wild West Is Once More Touring America.

After touring Great Britain and Continental Europe for the past four years, Buffalo Bill's Wild West and Congress of Rough Riders of the World's home again. Arrangements have been perfected for the exhibition to appear in this city on Thursday September 26.

Exactly as given in Madison Square Garden, New York City, when the show opened its tour this Spring, the performance will be presented without curtailment or changes of any sort.

Buffalo Bill has been abroad so long that his home-coming affords what is practically a novelty of entertainment. During his absence the little folks have grown into youths and young ladies and those of us who saw the exhibition years ago will take equal interest in seeing it all over again. There will be real novelty provided in many features of the programme and for the home-coming tour of this foremost among arena institutions, two spectacular features have been prepared as special attractions.

During the four separate tours of Europe which Buffalo Bill has made, he has presented his historical entertainment in eighteen different countries, before crowned heads and plebeians, and in a vast majority of instances where an English-speaking person was a rarity. But in all his travels he has depicted the conquest and eventual civilization of the Indian and with unflinching fidelity and with success which has astounded the skeptical. He has done more than any other American to open the book of our early history before the eyes of Europeans and they have looked with admiring eyes upon the wonders there unfolded.

While the exhibition will be practically new this season, the display will, of course, conform to the general style of entertainment which Col. Wm. F. Cody ("Buffalo Bill") has always presented. The topping features of the programme will be the pantomimic melodrama "The Great Train Hold Up," and "The Bandit-Hunters of the Union Pacific," together with "The Battle of Summit Springs."

The Congress of Rough Riders of the World will constitute an important feature in the exhibition and will present a display of equestrian expertise and an exhibition of nerve, skill and manly daring which is sure to excite enthusiastic admiration.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Nelson Davis, who lives on Fletcher Avenue, Richmond, Ky., and is a plasterer by occupation, says: "Doan's Kidney Pills brought relief to me when all else had failed, and I had begun to fear that there was no cure for me. I was in a state of almost hopelessness when I got my first box."

The workings of Doan's Kidney Pills are marvelous. They worked a quick and lasting benefit in my case."

Plenty more proof like this from Mt. Sterling people. Call at F. C. Duerson's drug store and ask what customers report. For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other. 10-2t

The Latest In Jewels.

Enter the Roosevelt tooth as a precious stone. The rogue is established by the New York alderman of the President, who, having got hold of a babyhood tooth of that distinguished generator of teeth, had it set in a ring, surrounded by diamonds. The trouble about the fashion, however, lies in the limited supply of Rooseveltian gems. It makes them, in fact, wellnigh priceless. It is doubtful whether the President would be willing to part with many of his ivories to serve as precious jewels. He is apt to need them as a matter of utility. If he gave them up, what would he have to smash! and what to grit? What would he have to show his enemies?

Hereafter, following the notable example of the beforementioned alderman, it might be a wise precaution to preserve all infant's teeth. There is always some infant or other who is bound to become President.—Courier Journal.

NEWSPAPERS ONLY

Will Be Used by Newcastle, Indiana, Business Men in the Future For Their Advertising.

The Retail Merchants' Association of Newcastle, Ind., has placed the ban on all advertising schemes, and will have nothing to do with programs, so-called business directories or other schemes devised to separate a merchant from his cash. Newspaper advertising is recognized as the only profitable publicity method and will be strictly adhered to in the future. This decision was reached after one year's investigation of results obtained from various forms of advertising.

A committee was appointed by the Merchants' League who kept actual figures on the business done by the merchants and traced to various forms of advertising. The only form of advertising showing actual benefits was traced to legitimate newspapers. Special boom editions were condemned by the committee and merchants were urged to refrain from using them.

They are usually the products of solicitors traveling from city to city interesting a certain class of newspapers in their schemes and taking a per cent. of the profits for their share in the work, spending no money with the merchants who advertised. The Newcastle Merchants' League recommend that their merchants use only the bona fide newspapers published regularly either daily, Sunday or weekly. 1t

The collection of styles and the fabrics offered by the HOUSE of WALSH BROS. for the approaching season surpasses all our previous efforts, and the folks who have been coming here in the past know what that means and what they may expect. The shades and colorings in the fabrics for men's apparel for fall and winter as well as the styles are set and a solid fact, there is not the confusion and speculation that is usually entered into as what will be the correct thing as browns in medium, light and tan shades stands out so boldly that it can easily be seen that brown in all the different colorings will be correct in Men's Clothes from

Says the States, of New Orleans:

"So far as the great body of Democrats are concerned, who stood loyally by their party when the Courier-Journal engaged in its bold— which Mr. Watterson admits cost his paper its party standing and a quarter of a million dollars— Mr. Bryan is entirely satisfactory as a leader, and they are prepared if he desires the nomination, to give it to him and support him earnestly. Should not a quarter of a million of dollars—a good round sum, and that is what the Courier Journal paid for its fidelity to its convictions and its independence as a newspaper in 1896, devil penny the less—be accepted as some solid test of its sincerity and truth?"

Dont Worry.

According to an eminent alienist
there are three great causes of sui-
cide and insanity, each of which be-
gins with "w." One of them, and not
the least of them, is worry.

Everyone advises everyone else
never to worry. Few persons take the
advice, except those who would not
worry if the world were coming to
an end to-morrow.

The President of a "Dont Worry"
club in New York committed
suicide the other day. What is more
pathetic than the what is destruc-
tion of a man who had prom-
ised himself and his friends that
he would never let worry get a
grip upon his mind? The tale of
the ending of his life points a moral.
Wine, women and song, of
the quality that kill, a wise man
may escape, but worry may set its
fangs in his vitals despite his every
precaution and his every resis-
tance. And worry, so the physi-
cians tell us, breeds toxins of its
own, as well as to aggravate any
physical ailment that may be prey-
ing upon its victim.

It is a great thing to be able
not to worry. It means a gift
from Providence of a certain sort
of physical and mental make-up.

Thos. J. Bigstaff.

Mt. Sterling, Ky.

Dear Sir:—The Farmers Insti-
tute lecturers come to your city
from Winchester. It is not nec-
essary to say that much depends
on the local talent and how well
the Institute has been advised.
I beg to assure you that the
lecturers sent by the State com-
missioner in the spirit of helpfulness with
no axes to grind, save those that will
advance your best interests.

Yours for Success,
Lowell Rondebush.

Mt. Sterling, Ky., Sept. 9, '07.
Mr. Lowell Rondebush,
Georgetown, Ky.

Dear Sir:—Calculating that this
answer to your favor of 6th inst.
will reach you at the above place
—my old college town—I desire to
thank you and assure you that
your lectures here on the 27th and
28th instances will be well ad-
vertised, and if our farmers do not
take advantage of them, it will be
their fault and their loss.

I agree with you that there can
not be any axes to grind in this
great utilitarian movement (unless
it is to sharpen the intellect for
it means not only the greatest good
to the greatest number, but what
benefits the farmer benefits all,
either directly or indirectly.

Yours for better farming and
more of it.

Thos. J. Bigstaff,
President Montgomery County,
(Ky.) Farmers Institute.

Keep Your Nerve

It is nerve energy that runs
the organs of your body. The
storage battery is the nerve
cells in the brain and spinal
cord, and from this battery
nerve force is sent out through
the system of nerves. To keep
the body healthy, you must
have plenty of nerve force; if
you have not, the organs work
imperfectly, the circulation is
sluggish, digestion bad, appet-
ite poor, kidneys inactive, and
aches, pains and misery are
the penalty.

You can keep the system
strong with Dr. Miles' Nerve.
It assists in generating nerve
energy; it strengthens the
nerves and makes the whole
system strong and vigorous.

It takes pleasure in recommending
Dr. Miles' Nerve to those suffering
from nervous prostration, insomnia
and melancholy. After several
months' treatment from above disease
I tried this medicine and found im-
mediate relief. It soothes and strength-
ens the nerves, chases away the
gloom, and restores thought and
gives the sufferer renewed strength
and hope. It is a superb nerve re-
storer.

JAPAN SEIZES ISLAND.

The seizure by Japan of a small
uninhabited island in the Pacific
Ocean adjacent to the Philippine
Islands revives interest in the
possibility of friction between this
country and the Island Empire of
the East. Japan is suspected of
designs of the Philippines. She
needs an outlet for her surplus en-
ergy and population. The seizure
of Corea and the advantages she
has secured in Manchuria will per-
haps relieve the pressure to some
extent, but there is a conviction in
the minds of many close observers
of oriental affairs that Japan will
never be satisfied until the Philip-
pines are added to her dominions.

this mine 5 days before.

His remains were brought home.
He is survived by a sister, Mrs.
Virgil Moore.

Kentucky Postmasters.

The Kentucky Postmasters' As-
sociation meets in Louisville today.
It is the aim of the officials of
the association to make the meeting
one of unusual interest for the
members. Several of the heads
of departments at Washington have
signified that they would attend.

Death by Electricity.

At a meeting of County Jailers
of Kentucky, in Lexington, re-
cently a resolution was adopted,
recommending that the text Leg-
islature pass a bill substituting
electrocution for hanging. Such
a law would necessitate the execu-
tion of criminals at the peniten-
tiary instead of county seats. The
Lexington Herald says:

The proposition ought to com-
mend itself to the next session of
the Legislature. There is grave
doubt as to whether the death pen-
alty ought ever to be inflicted.
Certainly only the most extreme
cases justify the taking of a hu-
man life.

The world will probably reach
that advanced stage of civilization
when it will look back with hor-
ror to the days of the gallows, the
guillotine and the electric chair.
But we are not yet prepared to
abolish the death penalty. There
is likely to be any change soon.

We have no doubt about the ad-
visability of inflicting the death
penalty. Such punishment deters
men from committing life offenses.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will straighten the distorted limbs of chronic cases, nor turn long growths back to flesh again. That is impossible. I can cure every kind of Rheumatism and pain of this deplorable disease.

In Germany, a Chemist in the City of Darmstadt found the Rheumatism with which Dr. Shoop's Rheumatic Remedy was made. He had investigated it thoroughly without finding any cure. Cases of this horrible disease, found in Rheumatic Blood, some terrible and some less so, were cured by the use of this medicine. And, when the Rheumatism was cured, the blood was found to be pure water. And, when the Rheumatism was cured, the blood was found to be pure water. And, when the Rheumatism was cured, the blood was found to be pure water.

FALSE REPORT

Utterly Fails of Its Object in Wolfe County.

Republicans of Wolfe county sought to prevent the people from attending the speaking at Hazel Green and Campton by circulating reports that Judge Hager had canceled his speaking dates in both places and had taken another route. The report was freely circulated that neither Judge Hager nor Mr. Hendrick would be in Hazel Green, and has been planned to attend the Hazel Green speaking refrain from taking the trip, but others who heard the reports believed they were false, and a big crowd had started to Hazel Green but had turned back because of the report. They were met by Judge Hager and party between West Liberty and Hazel Green and accompanied the speakers to town.

The Killing Of Bull Bats.

I note that two negroes have been heavily fined in the court of Magistrate Hollis for killing bull bats, an insectivorous bird. It is certainly proper that such offenders should be fined, as the bird in question is one of the greatest insect destroyers we have. It seems to the writer that it would have been more in accordance with justice to have fined some of the kid-glove gentry who have been engaged in this violating of law.

If the negro is to accomplish anything in good citizenship, it is by the example of the white man. Instead of setting an example for the negro, it would seem that we were more intent on making an example of the negro. The booming of guns has indicated the violation of the game laws in Oakdale, Southern Heights and Beechmont by white men for weeks, yet nobody has been punished except a couple of ignorant negroes in another section. C. C. Smith. —Courier Journal.

A bill has been passed by the Georgia Legislature providing for the disfranchisement of ignorant and indigent negroes.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their going or over-zealous doctor, separate diseases, for which he assumes them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by one underlying disease. The Physician, because of the course of suffering, keeps up his treatment until his patients are so weak that the wrong treatment, but probably worse, is prescribed, directed to the cause would be to dispense all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. It cures "run-down," "worn-out," "run-down," "run-down" teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally. Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing and restorative tonic.

As a soothing and strengthening nerve tonic, "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuritis, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

The average condition of spring wheat when harvested was 77.1, as compared with 79.4 last month and 83.4 for 1906 at the time of harvesting.

The average condition of the oat crop when harvested was 63.5, against 75.6 last month, 81.0 on September 1, 1906 and a ten-year average of 82.5.

OPPOSITION TO SALOONS.

Demand of All Candidates For Public Office.

At Frankfort, Ky., the Temperance Committee of the Kentucky Conference of the Methodist Episcopal Church, of which Col. George W. Bain, of Lexington, is the chairman, drafted its report on the temperance question and selected delegates to the coming meeting of the Anti-Saloon League of America and its representatives on the Kentucky Committee of that league. The report which was adopted by the conference:

THE COMMITTEE'S REPORT

Intruded as it is in the strongholds of sin, strengthened as it is by immense wealth and relentlessly defying as it does all restrictive laws in the interest of good morals the liquor curse is today the greatest tower of human wickedness that lifts itself in the land. We hail the wonderful achievements made along moral lines the past year, and especially the no-license victories through Kentucky, as cause for great hope, inspiration; yet we realize that while we face a future full of opportunity we enter this future under great obligation to unite in solid compact all good citizens for the complete abolition of this monstrous iniquity. Because this moral issue has assumed a political and legislative aspect does not carry it out of the sphere of church action; therefore, be it Resolved, As the church was organized to save society from its sins, it is the duty of church members to demand of men seeking offices of public trust an unqualified opposition to licensed saloons and since the twigs of Methodism was so bent toward this reform by its great founder, there should be beneath its branches no shelter for cowardice or compromise.

Resolved We hereby express our approval and endorsement of the position taken by the chief executive for enforcement of Sunday laws, and many other officials who in cities and towns have defended the Sabbath from this blighting of civilization.

Resolved, We recommend the use of unfermented wine in the Sacrament of the Lord's Supper as consistent with the character of a total abstinence church.

Resolved, Since the cigarette habit is dulling the brain, weakening the heart and poisoning the blood of our youth to an extent, and the use of tobacco in many forms encourages its habit, we hereby request on the part of both preachers and laymen total abstinence from the use of tobacco.

She was a member of the Methodist Church and her remains were brought here and after funeral service, conducted by Dr. J. L. Weber, assisted by Rev. H. G. Turner, burial was in Macheleph.

Mrs. Duty was twenty-eight years old, and a daughter of Mr. John Harper. She was married to William Duty about seven years ago and has lived in Winchester about four years. She was a woman of cheery disposition, had many friends, and her passing away is a source of much sorrow. To her husband, father and others in sorrow, comes universal sympathy. May her friends lay hold of God's salvation and be prepared to meet his ransom. About fifty friends came up from Winchester to attend the funeral. The exquisite floral contributions were evidence of the high esteem in which Mrs. Duty was held.

D.SCHARGED FROM OFFICE.

Bruce Wilson Brings Suit Against Geo. C. Everett.

JUDGMENT IN HIS FAVOR.

On January 3 the City Council summarily discharged Policeman Bruce Wilson, who was already under suspension, and elected Geo. C. Everett to succeed Wilson.

Suit was instituted in Circuit Court by Wilson against Everett for the office. Special counsel was employed by the City Council for the defense of Everett before the Council. The case came to trial and on Friday, September 13 was decided by Judge Young in favor of Wilson. Since January Everett has served as policeman and has received the \$50 monthly salary. Wilson thus is entitled to this salary for eight months, \$400 illegally paid to Everett, and will sue the city to recover same.

If the City Council had taken proper legal action against Wilson in January or since then he could have been removed and this extra salary and cost of suit and special attorney fee could have been avoided.

MISS MORTON

Thrown From a Horse and Killed Near Lexington.

While horseback riding Wednesday morning on the Tates pike, four miles from Lexington in company with William H. Hart, Miss Judith Morton, daughter of Judge Jere R. Morton, was thrown from her horse and killed.

The accident occurred shortly after 11 o'clock. Miss Morton, who is an enthusiastic horse-woman, accompanied by Mr. Wm. Hart, left for a horseback ride, going out the Tates' Creek pike. Miss Morton was riding a spirited animal, which she had never ridden before. They reached the brow of a hill and Miss Morton was in front.

He stopped his horse to fix a stirrup and Miss Morton rode on over the hill.

Her horse became unmanageable and ran away. A farmer saw the horse coming but could not stop it. The horse suddenly shied and Miss Morton was thrown violently to the ground, striking on her head. She never regained consciousness and died about 1 o'clock at a farm house near by. Her father in Frankfort came hastily in an automobile and arrived before she died. Her mother went to her immediately. She was 24 years old and very popular.
